

Children's Network

2004

Children's Network

Children's Network of San Bernardino County concerns itself with "children at-risk" defined as minors who, because of behavior, abuse, neglect, medical needs, educational assessment, or detrimental living situations, are eligible for services from one or more of the Children's Policy Council Member Agencies. Those agencies include:

Juvenile Court

Board of Supervisors

Transitional Assistance

Department of Children's Services

Inland Regional Center

Behavioral Health

Probation Department

County Administrative Office

Public Health

Children's Fund

Preschool Services

Sheriff's Office

County Library

County Counsel

Public Defender

Community Action Partnership

Superintendent of County Schools

Economic and Community Development

San Bernardino City Unified School Dist.

Arrowhead Regional Center

First 5 San Bernardino

District Attorney's Office

*2004
San Bernardino County
Children Data Summary*

2004 San Bernardino County Children Data

According to the California Department of Finance, there were 571,870 children and youth under the age of 18 years in San Bernardino County in 2004. (Prepared by: Program Analysis and Statistics, County of San Bernardino Department of Public Health)

In June 2004 there were 63,000 children in CalWORKS families. That represents a 14.4% decrease from January 2003 (73, 578 children). San Bernardino County has a rate of 199.1 per 1000 children below poverty level, compared to 181.7 per 1000 in California (California Department of Finance Projections, May 2004), and 171.8 per 1000 in the United States (2002 American Community Survey U.S. Census Bureau). (Source: HSS Legislation and Research Unit)

In the 2003-04 school year the Countywide Student Enrollment was 419,084 students, a 2.9% growth in enrollment over the 2002-03 school year. (Source: San Bernardino County Superintendent of Schools) For the 2002-03 School Year, the San Bernardino County graduation rate was 85.1% compared to California, 86.6% (CA Dept. of Education). (Source: HSS Legislation and Research Unit and San Bernardino County Superintendent of Schools)

In 2003 there were 37,986 unique children referred to the Department of Children's Services for suspected child abuse and neglect. That represents a 14% increase in referrals since 2000. (Source: Department of Children's Services) The Child Maltreatment Rate in San Bernardino County is 10.5 per 1000, compared to 12.2 per 1000 in California (2004, U.C. Berkeley Center for Social Services Research), and 12.3 per 1000 in the United States (2002, U.S. Dept. Health and Human Services). (Source: Department of Children's Services and HSS Legislation and Research Unit)

In 2003 there were 5,978 minors booked into both the Central Valley Juvenile Detention and Assessment Detention Center (4,033) and the West Valley Detention and Assessment Center (1,945), a 3.8% increase over 2002. (Source: San Bernardino County Probation Department) In 2002, the Juvenile Arrest Rate in San Bernardino County was 33.6 per 1000, compared to California, 24.3 per 1000 (Calif. Department of Justice), and the United States, 22.3 per 1000 (Crime in the U.S, U.S. Dept. of Justice). (Source: San Bernardino County Probation Department and HSS Legislation and Research Unit)

The Child Mortality Rate in San Bernardino County is 66.7 per 100,000 children (2001), compared to California, 51.2 per 100,000 (2001), and 63.6 per 100,000 in the United States (2003, National Center for Health Statistics)). (Source: HSS Legislation and Research Unit and San Bernardino County Department of Public Health)

In March 2004, there were 2,363 San Bernardino County children and youth placed in State Licensed Institutions, a 10.1% increase over March 2003. (Source: San Bernardino County Human Services Auditing)

Children's Network 2004 Activities/Outcomes

Children's Policy Council

- Made contract recommendations to the Board of Supervisors for the use of the Child Abuse Prevention (CAPIT) and Safe and Stable Families funding
- Approved the 2004 Group Home Needs Assessment to be forwarded to the Board of Supervisors
- Made recommendations regarding various group home rate increases to the Board of Supervisors
- Made recommendations to the Board of Supervisors regarding legislation to improve quality of care in group homes
- Developed program ideas to improve outcomes for special needs, transitional age youth
- Recommended to the Board of Supervisors that April 2004 be declared Child Abuse Prevention Month in the County of San Bernardino
- Recommended to the Board of Supervisors that a moratorium be placed on letters of support for new group homes in the County; and, that specialized treatment beds be procured through an interagency RFP process
- Collaborated with the County Superintendent of Schools and other Policy Council member agencies to develop a School Resource Directory highlighting partnerships between County Agencies and School Districts
- Provided the leadership for Prenatal and Children's SART (Screening Assessment Referral Treatment)

Children's Fund

- Daily Referral Activity: In 2003/04 Children's Fund had 3,024 referrals for food clothing, medical care, cribs, beds, car seats, etc., for a total expenditure of \$460,098
- In 2003/04, Children's Fund served 40,518 San Bernardino County children
- Fund Raising Activity: In 2003/04 Children's Fund gross revenue was \$2,614,529 that included both monetary and in-kind contributions

Child Care Planning Council

- Distributed California Department of Education's AB 212 Child Care Staff stipends in the amount of \$578,850
- Provided 59 trainings, and 647 units of service through the Early Learning Opportunities Federal Grant
- Represented San Bernardino County at various state and local meetings addressing the need for affordable, quality child care and development services
- Coordinated appointments to the CCPC through the Board of Supervisors and County Superintendent of Schools
- Provided sponsorships for various child development trainings
- Conducted a survey with CCPC members to improve coordination and collaboration within the child care system for special needs children, legislation and training

Family Preservation Councils (MDT's)

- Served 665 at-risk children through the multidisciplinary team process
- Diverted 94.4% of those children from foster care through the coordination of numerous interventions and community resources
- Estimated local foster care cost savings (based on an average Foster Family Agency rate of \$1,717 per month if child were placed x 6 month stay in care): \$2.7 million

Child Welfare Services Self-Assessment Team

- Child Welfare Services outcomes & accountability legislation represents a comprehensive shift in how child welfare services will be administered in California. Through a multi-year effort, rooted deeply in county-level collaboration, the self-improvement plan will guide efforts to improve the lives of children and families who come into contact with child welfare services
- There is an increased focus on prevention and strengthening families through community partnerships that form an integrated network of public and private resources
- The local planning body for self-assessment & self-improvement plan, the Child Welfare Services Self-Assessment Team, was established under the auspices of the Children's Policy Council in 2004

Children's Lobby

- Discussed and followed 37 California State Assembly and Senate bills impacting children at-risk through the 2004 legislative session
- Sponsored with Board of Supervisors approval, Assembly Bill 2149 (Longville) to promote quality services for children in group home placement

Child Abuse Prevention Council

- Collaborated on the Child Abuse Prevention Campaign with cities throughout San Bernardino County. Received 9 Proclamations from cities
- Distributed 64 master sets of parenting materials, printed & distributed more than 250,000 pieces throughout the county
- Attended or was represented at 125 community events, presented to city councils at their meetings, made numerous presentations during the April and Safe Summer campaigns
- Tracked number of drownings and children left in vehicles to compare data over long-term with goal to reduce the number of incidents in San Bernardino County
- Presented findings and program information to Policy Council on parenting classes offered in San Bernardino County

Interagency & Community Partnerships

Interagency & Community Partnerships

In an effort to improve outcomes for children and their families, Children's Network helps to establish and support partnerships with other public and private child serving agencies throughout San Bernardino County and beyond. The following is a listing of some of the partnerships in which Children's Network is involved:

Head Start Shared Governance Board

County School Attendance Review Board

Countywide Gangs & Drugs Task Force

Juvenile Justice Coordinating Council

Law Enforcement Education Partnership

Children's Lobby

Child Death Review Team

Montclair Community Collaborative

Workforce Investment Board
Youth Council

Perinatal Coalition on Drug
& Alcohol Abuse

San Bernardino City & Ontario/
Montclair School Attendance
Review Boards

CHILD DEATHS

From 1992 to 2002, there has been a general decrease in the childhood death rates among San Bernardino County residents less than 18 years of age. From 2001 to 2002, the overall death rate for children decreased by 3.8% and the injury childhood death rate decreased by 23%. However, in 2002, there was a 9% increase from the year 2000 in the natural childhood death rate.

The overall childhood death rate among San Bernardino County residents was 64.2 per 100,000 persons less than 18 years of age in 2002. In the same year, the death rate due to natural causes was 51.8, and the death rate due to injury causes was 12.4.

The following table presents the Child Death Review Team's (CDRT) findings for deaths in 2003. Similar to the Fetal Infant Mortality Review process, information is obtained from parents, vital records, the Coroner's Office, and medical records. The intent of the review process is to identify factors or circumstances contributing to child deaths in the hope of preventing future occurrences. It should be noted that the conclusions of the CDRT may not match the counts by cause of death compiled from vital records.

Prepared: Program Analysis and Statistics, Community Health Services

Department of Public Health, San Bernardino County, 10/2004

In 2002, there were 226 deaths among persons under the age of one year in San Bernardino County. Approximately 47% of these deaths were due to certain conditions originating in the perinatal period. In addition, congenital malformations, deformations and chromosomal abnormalities accounted for over 26% of the deaths among infants in San Bernardino County. Also, approximately 3% of infant deaths in 2002 were due to external causes (injuries).

September 2004

Among San Bernardino County residents between the ages of 1-17 years, there were 137 deaths in the year 2002. Approximately 46% of these deaths were due to external (injury) causes. These included transport accidents, accidental drowning and submersion, accidental poisoning and exposure to noxious substances, accidents caused by exposure to smoke, fire and flames, assault (homicide), intentional self-harm (suicide), and other external causes. Neoplasms among children and youth residing in San Bernardino County accounted for 14.6% of deaths, while diseases of the nervous system accounted for 9.5% of deaths in 2002.

INFANT MORTALITY RATE

Since 1992, the number of infant deaths among San Bernardino County residents generally has been decreasing. Although the number of infant deaths in the year 2002 was the same as in the year 2001, the infant mortality rate for 2002 was slightly lower. The 226 infant deaths in the year 2002 represented an infant mortality rate (IMR) of 7.6 per 1,000 live births as compared to 7.7 per 1,000 live births in 2001. San Bernardino County has not yet reached the Healthy People 2010 Objective of 4.5 infant deaths per 1,000 live births.

NOTE: Infant Mortality Rate defined as infant (less than one year of age) deaths per 1,000 live births.

*Simple Infant Mortality Rate defined as infant deaths in particular year divided by live births in that year, birth-deaths not matched.

September 2004

LIVE BIRTHS TO TEEN MOTHERS

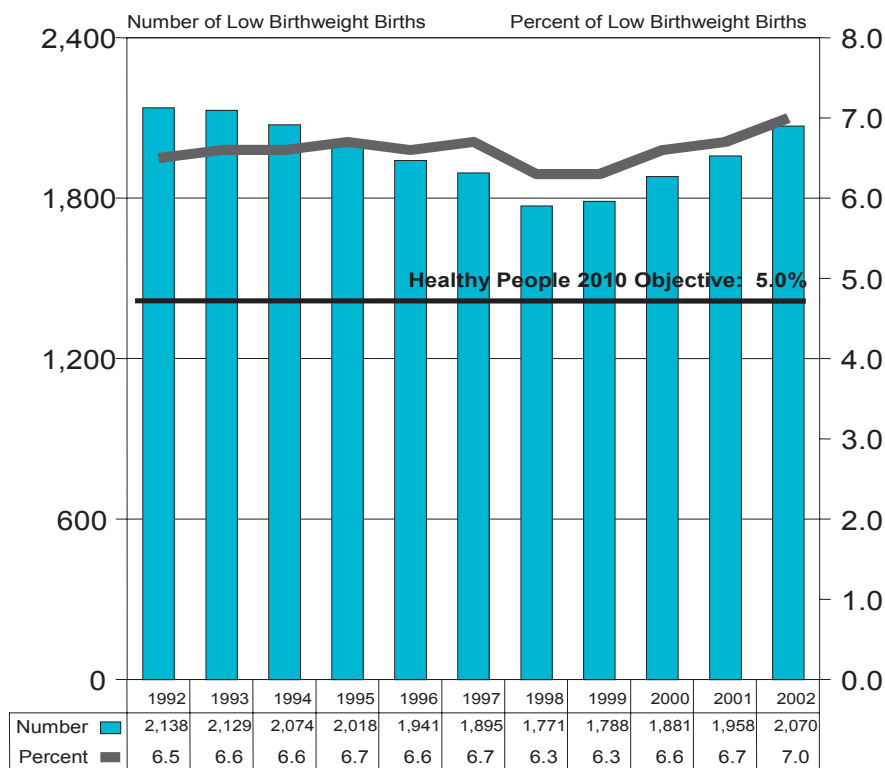

In 2002, the birth rate to teen mothers age 15-17 years in San Bernardino County was 24.2 per 1,000 females age 15-17 years. Since 1994, there has been a general decline in the birth rates among teens, as evident in the 12% decrease from the years 2001 to 2002.

LOW BIRTHWEIGHT LIVE BIRTHS

The percentage of low birthweight births in San Bernardino County has fluctuated between 6.3% and 7.0% over the past decade. A low birthweight birth is defined as a live birth weighing less than 2,500 grams (5 pounds, 8 ounces). In 2002, 7.0% of all live births in San Bernardino County were low birthweight. This was a 4% increase from the previous year. San Bernardino County has not yet achieved the Healthy People 2010 Objective for low birthweight of less than or equal to 5.0% for all races/ethnicities.

Low Birthweight Live Births*
San Bernardino County Residents, 1992-2002

*Low Birthweight Live Births defined as live births weighing less than 2,500 grams.

Child Abuse & Neglect
Data

Department of Children's Services Year to Date

Update as of 01/08/2004

Referral Information

	2000	2001	2002	2003
Referrals Received	24,331	25,887	26,519	27,673
Unique Children Involved	35,658	36,736	36,791	37,986
Total Children Involved ** this is a duplicate count of children which includes children who had multiple referrals during the reporting period.	50,022	51,829	51,713	53,599
Average Referrals Received Per Month	2028	2157	2210	2306
Abuse Type Reported				
Sexual Abuse	9%	9%	10%	9%
Physical Abuse	18%	18%	20%	17%
Severe Neglect	4%	4%	4%	3%
General Neglect	39%	43%	43%	44%
Emotional Abuse	8%	8%	3%	2%
Caretaker Absence/Incapacity	9%	8%	6%	5%
Exploitation	<1%	<1%	<1%	<1%
At Risk/Substantial Risk	12%	11%	11%	15%

The above figures represent a 6.4% increase in referrals received between 2000 and 2001. 2002 referrals show a 2.44% increase over 2001 which represents a significantly lower rate of increase over the previous 2 years. 2003 referrals show a 4.4% increase over 2002 which represents a higher rate of increase over 2002. Overall there has been about a 14% increase in referrals since 2000.

Demographics – Children involved in referrals are almost evenly split by sex. This ratio has remained constant over the years. The percentage of children age 8 and younger has remained the same as 2002 at 52%. In 2001 52% of children reported have been age 8 or younger. In 1999 42% were age 8 or younger.

Appendix 3 Probation Data

Youth Accountability Board

The Youth Accountability Board (YAB) Program was established in Hesperia in 1991. Today, there are 24 boards in operation, comprised of about 380 volunteers countywide. The YAB processed more than 900 cases in 2003.

The YAB hears and resolves cases involving first-time juvenile offenders. The Board is a collaborative effort of the Probation Department, local law enforcement and local citizen volunteers. The intent is to divert minors from the Juvenile Justice System after their first brush with the law. The local board meets with the minor and parents and subsequently puts the minor on a contract that includes mentoring or “tracking” the case, assisting the minor in fulfilling his/her obligations, and creating a sense of responsibility for his/her behavior.

In April 2003, the Probation Department held a Youth Accountability Conference at the University of Redlands’ Orton Center. A Parent Project representative donated his time as the keynote speaker and presented a workshop on parenting skills. A total of twelve workshops were offered with about 145 conference attendees participating in each of three workshops.

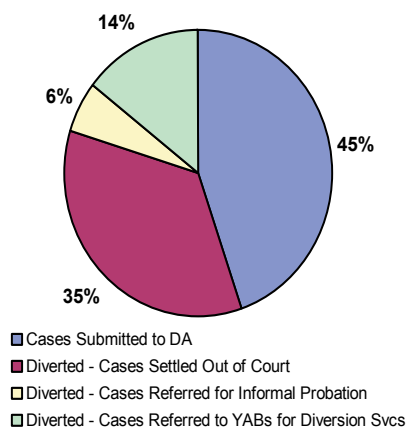

School Probation Officers

School Probation Officers (PO) serve on a variety of school district campuses throughout the County. They work closely with school administrators, teachers, parents, security personnel and high-risk youth. Students with behavior problems, which could result in further contact with law enforcement or the Juvenile Justice System, are targeted for intervention. Students elected for services are monitored for attendance, academic performance and behavioral issues. On campus, the PO works closely with the school personnel, often conducting in-service training for school security, teachers, counselors, and administrators. As a result of cutbacks from the DOJ, JAIBG, and AB1913 grants, the number of school POs has been reduced from 30 in 2002 to 17 in 2003.

Community Service Team/Quick Draw

The Community Service Team/Quick Draw Program is designed to divert youthful offenders from the Juvenile Justice System through preventive services. Fifteen (15) CST/QD officers are assigned and located at each police agency and most Sheriff’s substations in the County. These officers perform two primary functions: first, provide initial evaluation of all out-of-custody arrests; and second, divert juvenile offenders from the Juvenile Justice System through appropriate diversion program referrals and informal supervision pursuant to W&I 654 and W&I 654.2. Overall, CST officers were instrumental in diverting 55% of the cases referred to CST officers.

Disposition of Cases Referred to CST

Appendix 4 Children's Fund

Children's Fund Annual Report July 1, 2003 – June 30, 2004

Despite a very difficult economy, it has been an extraordinary year of accomplishments for Children's Fund. It is only through the dedication, commitment and efforts of our Board of Directors, Staff, the Claremont/West-End and Bonnes Meres Auxiliaries, the County of San Bernardino, Donors and Volunteers that we continue to make a difference in the lives of at-risk children, in San Bernardino County. All of these individuals and organizations truly embody the humanitarian spirit; in its purest form ... to all of you we are deeply indebted!

PURPOSE

The purpose of Children's Fund is to ensure that children who are at risk in the community because of abuse, neglect, abandonment or circumstance receive adequate food, shelter, clothing, health care, education and are provided equal opportunity for social development. Children's Fund is a private, not-for-profit 501(c)(3) organization that calls to action private business, the public sector, and concerned citizens to form a public/private partnership.

HISTORY

Children's Fund was established in 1986 by the Board of Supervisors as the non-profit component of San Bernardino County's model agency, Children's Network. It was designed to be a true public/private partnership. The county provides modest funding for administrative overhead, so every dollar raised by the Fund goes directly to meet the needs of newborn to eighteen-year-olds that are at-risk in San Bernardino County. Goods and services that are not available through other agencies are provided through Children's Fund.

BOARD OF DIRECTORS

In 2003/2004, Joseph P. Barr, Principal, Swenson Corporation, serves as Chairman of the Board, for the 26-member Board of Directors. Dave Harris, Partner, Ernst & Young LLP, serves as Vice Chairman. Founding Chairman Emeritus is Jack Brown, CEO, President and Chairman of the Board of Stater Bros. Markets. The all-volunteer board is comprised of successful businessmen and women who share a concern and desire to do something positive about the plight of underprivileged and abused children. By design, the Board has a broad base of representation that takes into consideration not only geography, but cultural backgrounds and special interests as well.

MEETING FORMAT

The Children's Fund Board of Directors meets monthly at a previously designated time and place. The Executive Committee of the Board of Directors, which is comprised of the Officers of the Board, also meets monthly at a previously designated time and place. The Chairman of the Board chairs both meetings, and minutes of the meetings are maintained in the Children's Fund office, which is located in the County Government Center. Committees of the Board consist of: Fund Raising, Marketing, Program, Operations, and an Education First Task Force which was set up in 1999 to explore a restructuring of the Children's Fund school for children of homeless families.

AUXILIARIES

Children's Fund enjoys the support of two auxiliaries, Bonnes Meres Auxiliary in Redlands and Claremont/West End Auxiliary. Both are seasoned fund raising groups, and together their efforts contributed \$70,415 to Children's Fund in 2003/2004. Additionally, the auxiliaries support the mission of the agency by heightening public awareness regarding at-risk children.

SERVICE DELIVERY

Social Workers/Case Managers from any of the 19 member agencies of Children's Network, agencies such as Department of Children's Services, Child Protective Services, Public Health, and the County Schools, are eligible to submit a request for resources needed by a child on his/her caseload. In 2003/2004, 3,024 requests were filled and 40,518 children were served.

Children's Fund serves children under three major categories: Daily Referral Activity, Community Outreach and Proprietary Projects.

Daily Referral Activity: This is to be our first priority. Requests that are made daily by case manager/social workers fall under this heading, and include such necessities as diapers, emergency food, clothing, medical care, cribs, beds, car seats, health care, and social development. The greatest number of these referrals are for items costing under \$200.00, but are not available elsewhere and are essential to a child's well-being.

Community Outreach: Included in this category is the annual Celebration of Giving Holiday project, as well as pediculosis control funding support, the April Child Abuse Prevention Month, and much more. In addition, Children's Fund continued to serve as the fiscal agent for a grant with the Centers for Disease Control. This grant was designed to target teen pregnancy reduction and is a collaborative with Children's Network, Loma Linda University School of Public Health and the Department of Public Health.

PROPRIETARY PROJECTS

This particular category includes two major projects that are viewed as priorities by Children's Fund Board of Directors.

Education First: School for children of homeless families has completed its ninth successful year of holistically attending to the needs of homeless children and their families. Other agencies intricately involved in Education First are the San Bernardino City Unified School District, County Superintendent of Schools, Community Services Department, Department of Public Health, Department of Public Social Services, the Homeless Coalition, and the Children's Network. In 2000, Children's Fund provided dollars to hire a Public Health Nurse to the Case Management team to address the health concerns of the children and families.

The Children's Assessment Center: This Center receives special attention from the Children's Fund. The agency's role here is to provide for those things not available through the other participating agencies. Other significant agencies contributing to the Children's Assessment Center include the Department of Public Social Services, Department of Public Health, County Medical Center, County Counsel, Loma Linda University Children's Hospital, District Attorney, Sheriffs' Department, Children's Network, Juvenile Court and Family Court Services. The center provides medical examinations and forensic interviews for children who are suspected of having been sexually and/or physically abused. In 1998/99, Children's Fund Board of Directors embarked on a capital campaign to purchase land and a building to permanently house the Center. The Center officially opened in November of 1999.

Total Cash/In-Kind Expended in 2003/2004 = \$1,588,486

FUND RAISING ACTIVITY

While fundraising was a priority for the agency, supporting the fire-ravaged County was an on-going priority. Cognizant of the impact of a deeply troubled economy-state budget crisis, and a nation at war, the Children's Fund Board of Directors allocated \$25,000 to assist families with children suffering loss, as related to the fires. Children's Fund is very pleased that for the past consecutive nine years, it has exceeded the \$1,000,000 mark!

Grants: In the area of grant funding, and as stated under the community outreach section, Children's Fund was once again the fiscal agent for a grant through the Centers of Disease Control to target teen pregnancy reduction. Additionally, it received a \$40,000 grant from The Los Angeles Times Mirror Foundation, and \$3,000 from the Community Foundation. Children's Fund was also the recipient of grants for emergency medical needs for children throughout San Bernardino County, emergency needs in general such as food and clothing in the City of San Bernardino, and support of the Education First program.

Cash & In-Kind: Cash is broken down by major sources of revenue. The primary revenue sources include:

President's Circle:	\$70,000
Duck Race:	\$70,646
Auxiliaries:	\$96,017
Golf Classic:	\$335,982
Celebration of Giving:	\$973,083 (cash & in-kind)
Grants, General Cash & In-Kind Donations:	\$1,068,801
Total Revenue Generated for 2003/2004:	\$2,614,529

San Bernardino County's In-Kind support continues to sustain the administrative overhead. This contribution empowers Children's Fund to designate 100% of its fundraising contributions to serve at-risk children throughout San Bernardino County. The General Donations include the support of the many individuals, Corporations, and the County Employee Contributions.

Appendix 6

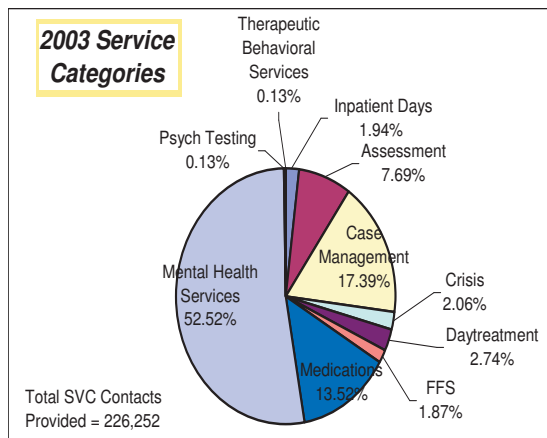

Behavioral Health

San Bernardino County Department of Behavioral Health

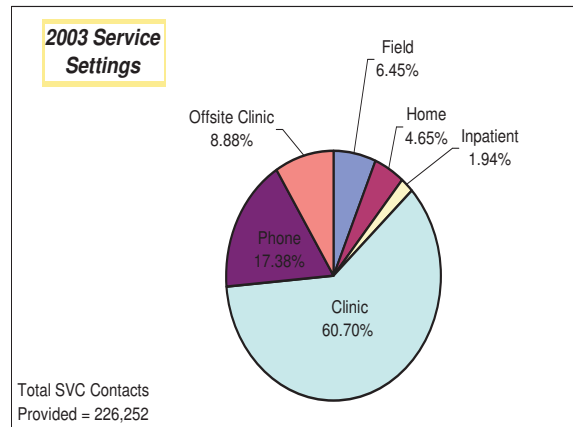

In an effort to devote increased Department of Behavioral Health (DBH) resources to the county's emotionally disturbed children and youth, community-based clinics and contract agency partners have taken a proactive approach to reach and serve children in schools and communities in larger numbers. The graph below shows steady growth in the number of children served by the Department and its contractors since 1999. From that year until 2003, the number of unduplicated children served by the Department has grown by 61%.

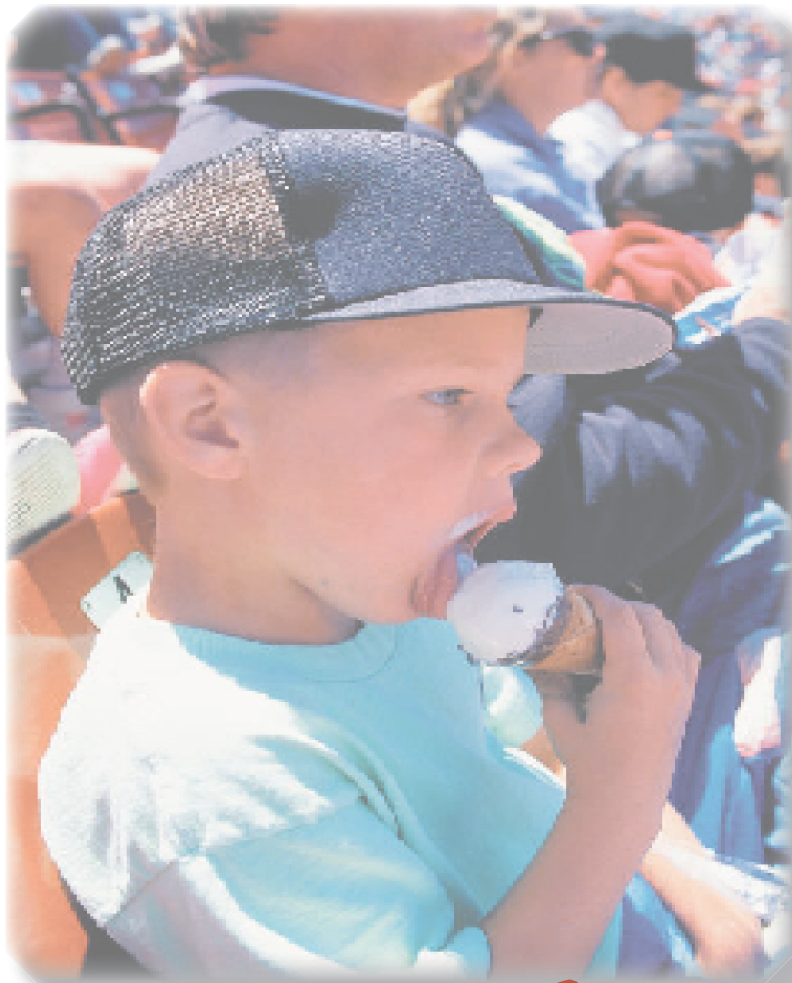

The graphs below show that, for the 13,267 served in 2003, nearly all services provided were outpatient or community based services. These services include supports, interventions and consultation services that assist emotionally disturbed children and their families/caretakers to cope with the challenges they face, to discover their strengths, and to develop resiliency in partnership with a support network of caring professionals and peers.

*Mental Health Services include: collateral, group therapy, individual therapy, skill building and plan development

*Offsite clinics can be located in a school, or another DBH or community facility.

Appendix 7 *Welfare Data*

CITIES' CASH BENEFIT POPULATION
RANKED BY PERCENTAGE OF POPULATION
